

Covid Safety Policy

For the safety of all of our guests and staff, it is preferred that you are well when you arrive. If you are unwell and have Covid symptoms, we would prefer that you reconsider your stay with us if you have not yet checked in.

"Covid symptoms":

- Fever
- Dry cough
- Shortness of breath
- Fatigue, dizziness
- Loss of taste, smell
- Diarrhea
- Headache
- Sore/scratchy throat
- Muscle aches
- Runny nose
- Chills/night sweats
- Vomiting

If you have "Covid symptoms" during your stay with us, please follow these 2 steps:

1. **Remain in your apartment, and ring Reception (dial 9)**
This first step will help to minimise the risk of transmission to other guests and staff.
2. **Monitor yourself with a Rapid Antigen Test (RAT)**
This second step helps to determine when you are infectious. If you don't have a RAT kit, we can supply kits to you at minimal cost. We will do our best to support you with ways to receive help & recover, and we will modify our services & cleaning in order to help minimise the risk of transmission to other guests and staff.

We encourage you to maintain healthy hygiene habits. By washing & sanitising your hands, and wearing masks when you are unsure whether you or others are infectious, covid transmission can be minimised.

For more information on Australian government requirements and guidelines on covid safety, please visit:
